United States Division
Fort Worth vARTCC (ZFW)**

Scratchpad Inserts

The following abbreviations shall be used to annotate the datablocks of departing and arriving aircraft within the ZFW airspace. This shall be done using the radar client's scratchpad feature

- Departing Aircraft
 - Annotate the Datablock with the first four letters of the Departure Gate for non-RNAV departures for any aircraft departing the D10 TRACON.
 - Annotate the datablock with the first four letters of the first RNAV waypoint for all RNAV Departures from KDFW.

- Arriving Aircraft shall have their datablock annotated with the type of arrival and runway assignment as follows:
 - Visual: v36L
 - ILS: i36L
 - GPS: g35C
 - RNAV: r17C
 - VOR: o13R
 - LOC: L17C
 - NDB: n17

- Other:
 - Speed restrictions (knots IAS): 230k
 - Assigned Heading: 090h
